

BHOOMIK SEVTA

Jaipur, Rajasthan | P: +91 7665700956 | 2007bhoomiksevta11@gmail.com

EDUCATION

JECRC UNIVERSITY

Bachelor of Engineering

Jaipur, Rajasthan

Expected June 2028

- Major in Computer Science; Specialization in Artificial Intelligence and Machine Learning
- Cumulative GPA: 7.5/10.0;
- Relevant Coursework: Software Engineering; MERN Stack; Python Development; Artificial Intelligence; Cloud Computing

WORK EXPERIENCE

VIDHEMA TECHNOLOGIES (*Python Trainee/Intern*)

Python Development Intern

Jaipur, Rajasthan

Jun 2025 – Sep 2025

- Developed web scraping program in Python to help the firm download public data, including over 10,000 company descriptions and leads, enriching internal data and increasing research efficiency by over 50%
- Implemented face recognition based attendance and ERP system increasing daily employee attendance by 30%
- Designed and implemented RAG Chatbot for Company data, providing hidden insights, improved client relationships and better productivity by 50%

UNIVERSITY PROJECTS

ITINERARY AND TOUR PLANNER

Nov 2025

- Designed and implemented AI based custom itinerary and tour planner application in 4-person team using React (Electron) in 3-day hackathon
- Enabled users to plan their tours, book hotels and flight tickets on a single app, key point: provides real time alerts on weather and natural hazards based on user's location to provide them cautions

KURUMI - LOCAL AI DESKTOP CLIENT

Apr-May 2026

- Singlehandedly designed and implemented a React-Native (Electron) based local AI desktop client to locally use Ollama provided LLMs with a modern GUI, artifact rendering, RAG pipelines for document analysis, Automatic1111 for local image generation
- GitHub repo - <https://github.com/bhoomik-codes/kurumi>

RAGIFY - RAG BASED SaaS APPLICATION

Mar -Apr 2026

- Designed and implemented a Retrieval Augmented Generation based SaaS application, providing RAG pipelines based on client requirements, providing unique BYOK architecture
- GitHub repo - <https://github.com/bhoomik-codes/ragify>

KUSUGAI: E2EE CONVERSATIONAL PLATFORM

May 2026

- Engineered a high-performance, full-stack communication and collaboration application featuring real-time messaging capabilities; successfully containerized and deployed the system to **Oracle Cloud Infrastructure (OCI)** for production-grade reliability.
- GitHub repo - <https://github.com/bhoomik-codes/kasugai>

ADDITIONAL

Technical Skills: Advanced in React.js, MongoDB, Docker, HTML/CSS; Proficient in Python, Google Cloud and Oracle Cloud Infrastructure

Languages: Fluent in Hindi, English; Conversational Proficiency in Japanese

Certifications & Training: Google Cloud Computing Foundations (Google Skill Boost)
